Subject: CFAC data and Site Update notification

Hey Mike,

First of all, Happy Birthday!

Second, I talked with Joe and he shared with me your conversation about posting the phase I data for the CFAC Site (without summary report) on the webpage in the short term. I have modified the SiteUpdate (attached) to reflect this change and we can send it out when the data is available. This Site Update will notify the data and the draft CIP. Please let me know if have any changes. We can send out another Site Update to notify the community when the summary report is available and our public meeting times (Aprilish)

To make the data available on our webpage, we need to get it into SEMS. I am CCing David Sturn who can help publish the document to our webpage once it is put into SEMS. After that, we can send out our notification.

I will call you to follow up. Thanks Mike.
